PROFESSIONAL SUMMARY

MCA Software Engineering student at USICT, GGSIPU with a strong foundation in software engineering, full-stack development, and Data Structures & Algorithms. Proficient in Java, JavaScript, Python, SQL, React.js, Node.js, Express.js, MongoDB, and MySQL. Experienced in building responsive, database-driven applications, RESTful APIs, authentication systems, third-party integrations, payment workflows, and cloud-based media management. Familiar with Git, API testing, Docker, and deployment workflows.

EDUCATION

USICT, Guru Gobind Singh Indraprastha University

Master of Computer Applications (MCA) – Software Engineering

Sept 2025 – Present

Delhi, India

BBD University

Bachelor of Computer Applications (BCA) – Data Science & Artificial Intelligence

Graduated July 2024

Lucknow, India

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML5, CSS3 **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, Material UI

Backend: Node.js, Express.js, RESTful APIs, JWT, EJS, Authentication & Authorization

Databases: MongoDB, MySQL, Firebase **DevOps & Tools:** Git, GitHub, VS Code, Postman, Docker, Vercel, Render

APIs & Integrations: Stripe API, Cloudinary, Firebase Authentication, Third-Party API Integration

PROJECTS

E-Commerce Clothing & Attire Website | Node.js, EJS, MongoDB, Stripe

- Developed a full-stack e-commerce platform with user authentication, session management, role-based access control, product management, shopping cart, checkout, and order processing workflows.
- Built RESTful backend workflows using Node.js and Express.js with MongoDB for user, product, inventory, and order management; integrated Stripe payment processing with server-side transaction validation.

MERN Photo Gallery Website | MongoDB, Express.js, React.js, Node.js, Cloudinary

- Built a full-stack MERN application with authenticated users, protected routes, responsive React.js components, and Node.js/Express.js backend APIs.
- Implemented JWT authentication, bcrypt password hashing, and authorization middleware; integrated Cloudinary for image upload, cloud storage, transformation, and optimization.

Portfolio Website | React.js, Tailwind CSS, Vercel

- Designed and developed a responsive developer portfolio using React.js and Tailwind CSS with reusable UI components and structured project sections.
- Deployed the application on Vercel and configured a production deployment workflow for publicly accessible project showcasing.

PROBLEM SOLVING & PROFILES

LeetCode: Active problem solver using Java, focused on arrays, strings, recursion, searching, sorting, two pointers, sliding window, and binary search.

GitHub: Maintains public repositories demonstrating full-stack development, backend APIs, database integration, authentication, and deployment.

ADDITIONAL INFORMATION

Languages: English, Hindi • **Interests:** Software Engineering, Data Structures & Algorithms, Problem Solving, Full-Stack Development
